

August 12, 2020

Steve,

I want to take this opportunity to thank you, the Martin County Veterans Committee and the city of Fairmont for allowing my wife and me to be part of a very special event. I never dreamed of what would transpire when I responded to an advertisement in a magazine.

The Veterans Committee and the restoration crew did a fantastic job. We were made to feel welcome in your community. The community's respect for and great treatment of veterans was very much in evidence.

I want to thank you for allowing me to have some input into the project. I didn't do any heavy lifting as compared to you or any of the others involved in the project, but I hope that providing names, information and suggestions contributed to the project.

Please share my gratitude to everyone involved.

Sincerely,
Mike
